Chit Chat

Beach Weather

Hey there drama, are you into karma?
Cause I'm dying to believe you're next
Oh is your mind erasing?
Well then you better chase it
Cause the thought it scaring me to death
Do you feel it?
Cause I feel it now
Are you shaking?

Do you know that it's never ever gonna be the way you want it?
So come on get your fix now

You drive me crazy with that chit chat,
do you want that or wanna take me home tonight?
All this chit chat is holding me back.
I'm breaking just to bend your light.
I thought I told you I really need your sugar
A roller coaster, I'm going supernova
This chit chat is holding me back from you

Hello reason, are you into treason?
Do you mind if I steal your heart?
Is it something sacred?
More than you tried to make it and you slowly let it rip apart

It's never gonna be the way you want it?
So come on get your fix now

You drive me crazy with that chit chat,
do you want that or wanna take me home tonight?
All this chit chat is holding me back.
I'm breaking just to bend your light.
I thought I told you I really need your sugar
A roller coaster, I'm going supernova
This chit chat is holding me back from you

Like a phantom I will steal your heart
Until we're dancing in the dark

Chit chat, do you want that or wanna take me home tonight?
All this chit chat is holding me back
I'm breaking just to bend your light
I thought I told you I really need your sugar
A roller coaster, I'm going supernova
This chit chat is holding me back from you
