

Someone's Disaster

Beach Weather

I've been searching for a drug like you
Breathing in that Pollyanna youth
Chasing down those melancholy hues
Cause I've been searching for a drug like you

Oh it kills me and there's no denying that I can't shake
Cause I just wanna be someone's disaster
And I can't break but I know you're trying
And it kills me cause I just wanna be someone's disaster

You've been looking for a wreck like me
A perfect catastrophic harmony
Falling in and out of symmetry
Cause you've been looking for a wreck like me

Oh it kills me and there's no denying that I can't shake
Cause I just wanna be someone's disaster
And I can't break but I know you're trying
And it kills me cause I just wanna be someone's disaster

I've been searching for a drug like you
You've been looking for a wreck like me
I've been searching for a drug like you
Oh for a drug like you

It kills me and there's no denying that I can't shake
Cause I just wanna be someone's disaster
And I can't break but I know you're trying
And it kills me cause I just wanna be someone's disaster
