

Back After The Break

Beady Eye

Here come my world view on love
Here come my push come to shove
This life, don't know why we try

Where is my wish coloured sun?
Beaming me up with just one more smile
Don't know where or why

In this scene do I fall right here?
It's not been my close-up after all
In this scene do I fall right here?
Or walk tall?
Walk tall, walk tall

Ring out church bell number one
Two, three, four, five and then some
Someone else's day's begun

Where you headed now - to where your head is at?
If you get there darlin' I'll leave it all at that
But 'til you do, I'm there for you
Yes it's true

In this scene do I fall right here?
It's not been my close-up after all
In this scene do I fall right here?
Or walk tall?
Walk tall, walk tall

That's all
That's all
That's all
