

## Evil Eye

**Beady Eye**

Don't give me your evil eye  
Just let it go, just let it lie  
Don't give me your reasons why  
You had to go, you had to fly

Sometimes your head is gone  
Been here for much too long  
Sometimes the road is wrong  
Got to keep holding on

Don't give me your evil eye  
You talk of love and how we're the same  
Listen up as tears go by  
I've no regrets, no one's to blame

Sometimes your head is gone  
In my view, what's going on  
Sometimes the road is wrong  
Got to keep holding on

You can call on me  
I gotta let you know love is all we need  
You gotta let it show  
Once you receive never let it go

You can call on me  
I gotta let you know love is all we need  
You gotta let it show  
Once you receive never let it go

You can call on me  
I gotta let you know I'm down on my knees  
I'm singing you my soul  
You're all I see in the afterglow
