

Let Us Vote

Bear Ghost

Bought out tenure
Greased up lenders
I've got a cut of the rule
Powerful friends
They say it doesn't hurt to learn to be
A little pragmatic

Protests, whining
Peasants pining
There's a profit to be made
On those common woes
So I would recommend that you make way

I will leave you ruined
(Let us vote)
I'm inevitable
I'll shove it through your news and
Lie lie lie
LIE

You Lilliputian people jump through hoops
And try to change your registration prior
To participate but what
You'll find is that
Your vote is disqualified

They I say I speak for greed
A strong proponent of war
Supported private prisons
That we're stacking the score
Got friends in the banks
Many scandals and "gates"
I'm relentlessly politically
Expedient in favor of
Me
(Money money money)
(Enough is enough we've heard)
You've heard
All of this but
You'll still vote for me

Health, debt, bombings
Trump, fear-mongering
You'll give up
(We'll stand up)
You'll concede
(We'll succeed)
You'll be too petrified and broken to see

I will leave you ruined
(Let us vote)
I'm inevitable
I'll shove it through your news and
Lie lie lie
LIE
I will leave you ruined
(Let us vote)

It's so cute how you act like
You won't be brought to heel and
Lie lie lie lie lie
LIE LIE LIE LIE
