

Necromancin Dancin

Bear Ghost

This is it!
Now we've found it. I'm astounded
Every town will be surrounded by a throng of marching death
Delicious the riches, they glisten ahead

It's a craze!
They'll devour every hour
Of these endless, non-progressive inundations of their kind
And lucky for you, you're the next one in line

When I'm necromancin', everyone's dancin'
No one can stop me. I dare you to try
The dead are infused with sensational groove
And they're coming for you now
There's nowhere to hide

Yeah! (Waltzing forth! Here they come!)
I'm raisin' the dead! (Everyone turn and run!)
I'm lovin' the dread! (Killer moves that will stun!)
Let's make some evil!

I'm in bliss!
My cadavers drive a gathering
Of streets of gleeful people
Seeing the deceased's advance
The risen are ridden with rhythm and dance

Dig up some flesh with plenty of mold
Disease is appeasin' for rickety bones
And make it saucy, with a hot incantation
Dominion is served with a bubbling, spirited, vibrant
Subjugation!

Yeah! (Waltzing forth! Here they come!)
I'm raisin' the dead! (Everyone turn and run!)
I'm lovin' the dread! (Killer moves that will stun!)
Let's make some evil!

Yeah! (Bust a move or you'll lose!)
The dance of the dead! (They'll swarm all over you!)
Get out there and shred! (It's a zombie footloose!)
And make some evil!

Cities laid waste, and they celebrate
Freed now from their graves (We love it so)
(More, more, more, more)
So mince and prowl
It's over now, the necromance ballet
You're all the same

Yeah! (Waltzing forth! Here they come!)
I'm raisin' the dead! (Everyone turn and run!)
I'm lovin' the dread! (Killer moves that will stun!)
Let's make some evil!

Yeah! (Bust a move or you'll lose!)
The dance of the dead! (They'll swarm all over you!)

Get out there and shred! (It's a zombie footloose!)
And make some evil!
