

Rivers Is A Vampire

Bear Ghost

Trade away 401ks
For a beach and sunny days
Overdue
But that ain't gonna crush us
Bet we're shattering the glass
Or we're gettin' nowhere fast
Rise at noon
And cause a little ruckus

I'm too high
To ever touch the ground
I'm too cool
To ever settle down
We're so pretty
We should run this town
Draining veins until I drown

Hold on, scratch that. It would seem
That one got away from me
Moving on
That's just my sense of humor
Overlooked and underpaid
And that's always been the case
But we're young
And we will change the future

Memes for days
What's trending? I can't wait
Swiping left
Until I see a bae
I'm just like you
I struggle but I slay
Whatcha say? Can I partay?

Out here vibin' in my scene
Living only to be free
Fingers up
To anyone above us
What a lovely sea of peeps
Better hit my live stream
It's ya boy!
Be sure to give a thumbs up

Please, oh please, just let me come inside
I'm so hungry
And I'm lookin' fly
I can rage
I promise I don't bite
Ready for another lease on life

Gimme the music
This beat is too sick
I wanna drink til I get stupid
Come on and lose it
That vital fluid
I cut loose when I move my hips
Let's hear the bass hit

I wanna taste it
I wanna rejuvenate again
What's that about? (Oooh)
I'll spell it out (Ahhh)
We're BFFs, at least for yours

Sangre
Dame tu sangre
Quiero beber toda tu sangre

Gee, well that was fun
And I've never felt so young
A success if there ever was one
Guess my secret's out, oh well
No one here is left to tell
Taking flight
I race against the sun

I'm too high
To ever touch the ground
I'm too cool
To ever settle down
I'll stay pretty
I'll always be around
The royal young will never let you down

Gimme the music
This beat is too sick
I wanna drink til I get stupid
Come on and lose it
That vital fluid
I cut loose when I move my hips
Let's hear the bass hit
I wanna taste it
I wanna rejuvenate again
V-A-M-P-I-R-E
