

She-Wrecks

Bear Ghost

I'm not like guys you've chased
I wasn't scared of your mean demeanor
Yeah your skin's a little dry
And you're much bigger than I
But you were mine

My friends said I'm insane
"That girl's a monster, and she'll consume you"
And sure enough, chewed me up and spit me out
Then you chewed me up again

I still think you're swell

Do you like what has become of me?
Turns out I'm just another link in your chain
You are still the girl that I used to know

I know you meant no harm
The way I got here could have been better
But now I'm in pieces
And the pain just increases all the time

So small in your tiny, little arms
I was bewitched by your deafening roar
I miss your smile, it's the last thing that I saw before you
Sank your teeth in and you swallowed me whole

I'm not ham (Don't forget to chew)

Do you like what has become of me?
Turns out I'm just another link in your chain
You are still the girl that I used to know
All this time I've been too blind to see
I'm nothin' to you but just savory meat
Led by your instincts, you're a carnivore

That crazy look in your eyes is divine, girl
But ooh, I'm crazy for you
Can we turn back time

You are still the girl that I used to know
All this time I've been too blind to see
I'm nothin' to you but just savory meat
Led by your instincts, you're a carnivore
