Bear Mountain

Wait, don't go
There's something I did you need to know
You've been looking for dirt and doing just fine
Go give me your worse; it's justified

Innocent hearts, innocent minds,
Innocent nights lead to innocent light
What do I say?
Where do I go?
You took the best of me
Don't say you love me now

Never thought I'd lose myself
The way you call me over
Never thought I'd lose myself
You're not the one for me
Never thought I'd lose myself
Talking so I could show her
Never thought I'd lose myself
It's not easy

Scrape the bone
Bury it deep in catacombs
Safe, alone
I do what you want, so let me go

Innocent hearts, innocent minds,
Innocent nights lead to innocent light
What do I say?
Where do I go?
You took the best of me
Don't say you love me now

Never thought I'd lose myself
The way you call me over
Never thought I'd lose myself
You're not the one for me
Never thought I'd lose myself
Talking so I could show her
Never thought I'd lose myself
It's not easy

Never thought I'd lose myself
