

## Summer & Smoke

Bear's Den

You came to me this morning  
With red eyes glowing  
Like my old pictures of you

And I love you in ways  
I find too complicated  
I can't take my eyes off you

May I speak with you openly from here?  
In this light a kind of blue  
If I don't say it now  
You could be gone forever  
Without knowing the truth  
Wait  
Where do you go?  
Can't I come too?  
I don't feel alive  
But when I'm with you  
I really do  
I need you

I still remember  
The Summer & Smoke  
The ocean breeze on lips bruised  
The person that you once knew  
Fell into a fire  
Blinded by the promise of you

May I speak with you openly from here?  
In this light - a kind of blue  
If I don't say it now  
You could be gone forever  
Without knowing the truth  
Wait  
Please don't go  
Can't I come too?  
I don't feel alive  
But when I'm with you  
I really do  
I need you

Sharing smokes out your bathroom window  
I was ashamed of how you made my skin glow  
I fell asleep as the smoke kept climbing higher and higher  
My heart was the house you left burning in that fire

I don't feel alive  
But when I'm with you  
I really do  
I really do  
I really do, do, do  
I need you
