

# Without You

Beardfish

Lately the sky has been so foggy  
And I know that it's my time to say I'm sorry  
Lately my life has been so lonely  
And you're out there somewhere now  
Are you free?

Please just say that you are coming home  
Please don't leave me here alone  
I am fading away without you  
Fading away  
Without you
