

# Love Me Like You Did

Bearings

She's got flowers in the passenger seat  
Taken out of context but so care free  
And all our favourite records burned to blank CD's  
Under the seat and all over the dashboard  
And she's driving off without me

(Chill oh's) I wanna save it but I'm not there  
(Chill oh's) You got me thinking that you don't care

No one's gonna love me like you did  
Tell me what's been happening in your head  
I know I left my heart under your bed  
Singing no one's gonna love me like you did

And that car goes fast but not fast enough  
To erase that feeling of dying love  
It's the hardest thing that I've ever done  
No you just can't count on the weather

(Chill Oh's) I wanna save it but I'm not there  
(Chill Oh's) You're looking through me with that blank stare

No one's gonna love me like you did  
Tell me what's been happening in your head  
I know I left my heart under your bed  
Singing no one's gonna love me like you did

Going over things that we both said  
Burning through these words that were misread  
I know I left my heart under your bed  
Singin no ones gonna love me like you did

Had to get away, Love me like you did  
Had to get away, Love me like you did  
Had to get away, Love me like you did  
Thought you were here to stay
