

## Scenery

## Bearings

I shake up the scenery  
Know you love the greenery  
Take you to the view to show you what you mean to me  
Got you on a Saturday, pick me up and let me see  
Everything I have to catch you in a melody

Took a long drive on my own  
To see a sunset that I didn't know  
All good 'cause I see in time  
These words will feel just right  
Life can be so sad, I know that you hate that  
I just wanna sit back and admire the view  
With you

I shake up the scenery  
Know you love the greenery  
Take you to the view to show you what you mean to me  
Got you on a Saturday, pick me up and let me see  
Everything I have to catch you in a melody  
I shake up the scenery, I shake up the scenery  
I shake up the scenery, I shake up the scenery

We can take a walk to the beach in the pitch black  
Keep the speaker low, have a drink, get it unpacked  
Look up at the stars while we listen to the 8 track  
Life is good, baby, take it easy, pull the shades back  
Keep it in context to keep it alive  
I know this is hard but the more that you try  
The more that you're given, it's hard to define  
So here's a good reason to open your eyes

I shake up the scenery  
Know you love the greenery  
Take you to the view to show you what you mean to me  
Got you on a Saturday, pick me up and let me see  
Everything I have to catch you in a melody  
I shake up the scenery, I shake up the scenery  
I shake up the scenery, I shake up the scenery

Long drive down all on my own to see a sunset that I didn't know  
I need that touch to take me home  
I shake up the scenery, I shake up the scenery  
Long drive down all on my own to see a sunset that I didn't know  
I need that touch to take me home  
I shake up the scenery, I shake up, I shake up

I shake up the scenery  
Know you love the greenery  
Take you to the view to show you what you mean to me  
Got you on a Saturday, pick me up and let me see  
Everything I have to catch you in a melody  
I shake up the scenery, I shake up the scenery  
I shake up the scenery, I shake up the scenery
