Bearings

I just don't know what I'm supposed to believe now  
So what do I do?  
And I'm not too sure but you're freaking me right out  
Who am I to you?

You've got me dreaming of the summertime  
With you and a view  
Not always common theme to feel alive  
These feelings for you

Wherever you are now  
You're breaking me heart now  
You've been living in my head  
But ya haven't been around  
Wherever you are now  
You're breaking my heart now  
It doesn't matter what ya say  
I can't figure you out

Late fall in love  
Remember when you spilled your wine all over my bed  
I feel you there but it's her instead  
Miss your bad tattoos and your silhouette

You've got me dreaming of the summertime  
With you and a view  
Not always common theme to feel alive

Wherever you are now  
You're breaking me heart now  
You've been living in my head  
But ya haven't been around  
Wherever you are now  
You're breaking my heart now  
It doesn't matter what ya say  
I can't figure you out
