

Keep It Easy

Bears In Trees

I kinda like my converse messy
Stitched at the seams
Fabric soaked in a fever dream
And my laces are vanguards
That steer clear of fast cars
While my body swerves

Keep it easy, keep it breezy
Keep it easy

I keep it easy, I keep it breezy
I wanna smile so hard that it chokes me
And the streetlamps know, they're calling my bluff
7 a.m. catch a head rush (rush)

This glass is cracked
I hold your heart in my hand
We stand on the rooftop in January heat
We're all in love
Luke doesn't tell us enough
We're all in love

I keep it easy, I keep it breezy
I wanna smile so hard that it chokes me
And the streetlamps know, they're calling my bluff
7 a.m. catch a head rush

Sweetheart, don't look so scared
I'm gonna bottle up all of your worst fears
And send them out to sea
They'll wash up somewhere
Radiant and evergreen
I'll etch it into the bus stop glass
Let them sink into the carvings of the couples that didn't last
The world ends around us every day
I'll be your flowers, your pouring rain

Keep it easy, keep it breezy
Keep it easy

I keep it easy, I keep it breezy
I wanna smile so hard that it chokes me
And the streetlamps know, they're calling my bluff

I wanna smile so hard that it chokes me
And the streetlamps know, they're calling my bluff
