

# Vampires

## Bears In Trees

You say you see the werewolf in my eyes  
And it's a full moon tonight  
Well, I haven't changed in some time  
We've got a brand new perspective

You say you see the werewolf in my eyes  
And it's a full moon tonight  
Well, I haven't changed in some time  
We've got a brand new perspective

You say you see the werewolf in my eyes  
And it's a full moon tonight  
Well, I haven't changed in some time  
We've got a brand new perspective

Breathe in, but don't let the air get out  
Of your fragile lungs, everything is different  
The air is colder now, it's filling with water  
And we're not prepared for this any longer

If I gave you a baseball bat  
Would you swing it at my mouth?  
Would you hit me in the chest so hard  
Rusty colours came out?  
I'm bringing sharpened words to a fist fight  
I don't need someone telling me I'm alright  
Imma be chasing ambulances all night  
When I bring sharpened words to a fist fight  
Woah, woah, woah, woah

And all of these plans work better in my head  
And she wants me to leave or just drop dead  
But I don't want to leave her high and dry, so instead  
I'll drop dead, I'll drop dead

If I gave you a baseball bat  
Would you swing it at my mouth?  
Would you hit me in the chest so hard  
Rusty colours came out?  
I'm bringing sharpened words to a fist fight  
I don't need someone telling me I'm alright  
Imma be chasing ambulances all night  
When I bring sharpened words to a fist fight  
Woah, woah, woah, woah

You say you see the werewolf in my eyes  
And it's a full moon tonight  
Well, I haven't changed in some time  
We've got a brand new perspective

You say you see the werewolf in my eyes  
And it's a full moon tonight  
Well, I haven't changed in some time  
We've got a brand new perspective

You say you see the werewolf in my eyes  
And it's a full moon tonight

Well, I haven't changed in some time  
We've got a brand new perspective
