

Devastation (Live From The Journey Below)

Beartooth

Yeah

Cathartic, lethargic, I'm sealed inside these walls
Ecstatic, emphatic, I've finally got it all
Feeding like a parasite, visions from the other side
Hoping for another try explaining why I die

There's something in the water, it washed away my pain
I lost all of my power, there's nothing left to gain
It's the energy, energy, fading away from me
Energy, energy, fading away from me

Belittled, entangled, there's nothing I can do
Berated, outdated, I'll never be renewed
Overrated, out of time, never gaining peace of mind
Caught without an alibi, explaining why I die

There's something in the water, it washed away my pain
I lost all of my power, there's nothing left to gain
It's the energy, energy, fading away from me
Energy, energy, fading away from me

Drop that shit
I'll end the same, let time explain
I'm such a waste, you will feel my pain
Devastation will reign

There's something in the water, it washed away my pain
I lost all of my power, there's nothing left to gain
It's the energy, energy, fading away from me
Energy, energy, fading away from me

Fading away from me
