

## Fed Up (Live From The Journey Below)

Beartooth

I'm so fed up I've had it  
I'm so fed up I've had it  
I'm so fed up I've had it  
I never want peace, I thrive in the panic

Fed up with you, fed up with my friends  
Fed up with seeing hell in my head  
Fed up with life, fed up with the sun  
Fed up with myself telling everyone

I don't wanna be so sympathetic now

I don't wanna be so sympathetic now  
Don't need any help, I'm figuring it out  
You don't need to understand it  
When all my world is static  
I'm so fed up I've had it  
I never want peace, I thrive in the panic

Fed up with me, fed up with my lies  
Fed up with putting new seed inside  
Fed up with getting better right now  
Fed up with everyone telling me how

I don't wanna be so sympathetic now

I don't wanna be so sympathetic now  
Don't need any help, I'm figuring it out  
You don't need to understand it  
When all my world is static  
I'm so fed up I've had it  
I never want peace, I thrive in the panic

I thrive in the panic  
I thrive in the panic  
I thrive in the panic  
I thrive in the panic

I need out  
Yeah

I don't wanna be so sympathetic now

I don't wanna be so sympathetic now  
Don't need any help, I'm figuring it out  
You don't need to understand it  
When all my world is static  
I'm so fed up I've had it  
I never want peace, I thrive in the panic

I never want peace, I thrive in the panic
