Fed Up

Beartooth

I'm so fed up, I've had it
I'm so fed up, I've had it
I'm so fed up, I've had it
I never want peace, I thrive in the panic

Fed up with you
Fed up with my friends
Fed up with seeing Hell in my head
Fed up with life
Fed up with the sun
Fed up with myself telling everyone

I don't wanna be so sympathetic now

I don't wanna be so sympathetic now
Don't need any help, I'm figuring it out
You don't need to understand it when I'm the one that's static
I'm so fed up, I've had it
I never want peace, I thrive in the panic

Fed up with me
Fed up with my lies
Fed up with letting you see inside
Fed up with getting better right now
Fed up with everyone telling me how

I don't wanna be so sympathetic now

I don't wanna be so sympathetic now
Don't need any help, I'm figuring it out
You don't need to understand it when I'm the one that's static
I'm so fed up, I've had it
I never want peace, I thrive in the panic

I thrive in the panic
I thrive in the panic
I thrive in the panic
I thrive in the panic

I don't wanna be so sympathetic now

I don't wanna be so sympathetic now
Don't need any help, I'm figuring it out
You don't need to understand it when I'm the one that's static
I'm so fed up, I've had it
I never want peace, I thrive in the panic

I never want peace, I thrive in the panic
