I Was Alive

Beartooth

Not gonna be on my deathbed
Knowing I'll be buried in regret
Think about the things I never did
While I'm taking my last breath
No need to fear the end
'Cause I'll know I didn't just live

When I die, I'll know I didn't just live
I was alive, I'll know I didn't just live
I was alive, live

Not gonna be on my deathbed
Wondering why I was always scared
To say those words I never said
To the ones I loved while I was there

When I die, I'll know I didn't just live
I was alive, I'll know I didn't just live
I was a person that you were proud of
Took chances, didn't doubt 'em
No need to fear the end
'Cause I'll know I didn't just live
I was alive, live

No need to fear the end
'Cause I'll know I didn't just live
No need to fear the end
'Cause I'll know I didn't just live
No need to fear the end
'Cause I'll know I didn't just live
No need to fear the end
'Cause I'll know I didn't just live

When I die, I'll know I didn't just live
I was alive, I'll know I didn't just live
I was a person that you were proud of
Took chances, didn't doubt 'em
No need to fear the end
'Cause I'll know I didn't just live
I was alive, live

I was alive, live, live
I was alive, live
