

I Won't Give It Up

Beartooth

I won't give it up, won't give it up
I won't give it up for you
I won't give it up, won't give it up
I won't give it up for you
Let's go

Now you've seen my face
Got it all in place
I couldn't stop this if I tried
It's been a long few years
But I finally feel like I can speak my open mind
But then you're back and you're here to stay
The same words you will always say
Giving up wouldn't save a thing
I just want the high without suffering

Taking me back to the good old days
Dragging me down to my same old ways
What I've made is all that I have
And I won't give it up for you

Telling me how it could be the same
Leaving me out in the pouring rain
What I've made is all that I have
And I won't give it up
I won't give it up for you

There's a void between our realities
But there's a common goal in mind
There's a price I pay
Keeping you at bay
And now the stakes are way too high
What do I believe right now?
You give me life but you hold me down
Giving up wouldn't save a thing
I just want the high without suffering

Taking me back to the good old days
Dragging me down to my same old ways
What I've made is all that I have
And I won't give it up for you

Telling me how it could be the same
Leaving me out in the pouring rain
What I've made is all that I have
And I won't give it up
I won't give it up for you

I've gotta live with the price I paid
Stay away, let me make this change
Nobody else will create my fate
Nobody else will create my fate

I won't give it up, won't give it up
I won't give it up for you
I won't give it up, won't give it up
I won't give it up for you

Taking me back to the good old days
Dragging me down to my same old ways
What I've made is all that I have
And I won't give it up for you

Telling me how it could be the same
Leaving me out in the pouring rain
What I've made is all that I have
And I won't give it up
I won't give it up for you
