

Sick Of It All

Beartooth

Always a product always a progress
Is there a gaping hole in this process
Always a product always a progress
Is there a gaping hole in this process

Destroy everything that makes us who we are
Destroy everyone that makes you who you are

I won't take it
I won't listen
I won't do this again

This is where we chose to see
Ourselves in a brighter light
I'm so sick sick sick of it all
I'm so sick sick sick of it all
Get the voices out of my head
So I can sleep tonight
I'm so sick sick sick of it all
I'm so sick sick sick of it all

How far will you go
To see me fall on my face again
I know I have a disease
But I won't let you exploit my condition

This won't be how it ends
Not again
This won't be how it ends
Never again

This is where we chose to see
Ourselves in a brighter light
I'm so sick sick sick of it all
I'm so sick sick sick of it all
Get the voices out of my head
So I can sleep tonight
I'm so sick sick sick of it all
I'm so sick sick sick of it all

I won't waste another moment living in fear
