

Dark New World

Beast In Black

Steel empire and arenas of violence
Cries of help, left to die in the silence
Evil ones claim the throne, total carnage rages uncaged
Morbid freaks run the show and I'm bound to engage
With God damn

Sodom and Gomorrah, revolting vermin legions everywhere
Rotten super-egos praise this dark new world
Sightless to the monster because your mirror's black forevermore
Never stop the madness in this dark new world

You impregnate fragile minds in a frenzy of perpetual rape
Breeding filth that you force everyone to accept and tolerate
I detest, I resist, and I spit on your crimes, you subhuman whores
Boiling with blood and bile I'm declaring a war
On your

Sodom and Gomorrah, revolting vermin legions everywhere
Rotten super-egos praise this dark new world
Sightless to the monster because your mirror's black forevermore
Never stop the madness in this dark new world

Sodom and Gomorrah, revolting vermin legions everywhere
Rotten super-egos praise this dark new world
Sightless to the monster because your mirror's black forevermore
I will fight the madness of this dark new world
Hell on earth, dark new world, oh yeah
