

Power Of The Beast

Beast In Black

The silence of a tortured heart
Is telling you to start
To fight the monsters that hurt you in the dark
They fear the fire and you're the spark

Power of the Beast is all you need
Every kind of pain will be healed
Rise up from defeat, have faith and dare to believe
Power of the Beast will make you roar
Gonna fight like never before
And you're gonna feel the force is invincible
Power of the Beast

The demons dread and abhor
Your fierce and mighty roar
Time for the showdown, the climax of the storm
The fearless lionheart is born

Power of the Beast is all you need
Every kind of pain will be healed
Rise up from defeat, have faith and dare to believe
Power of the Beast will make you roar
Gonna fight like never before
And you're gonna feel the force is invincible
