

This Is War

Beast In Black

Black dawn awaits our enemies
Kill with power
Heads fall, bones grinded
Ironclad war beast, young masters of death

Harvesting glory and trophies of war
Proudly we triumph in battle
Chasing the dream of a kingdom and throne
Hail to the Band of the Hawk

This is war
This is war

Scream, crawl, rise up from agony
Rip their hearts out
Fierce, raw, berserker
Deliver the ultimate wrath of thy sword

Harvesting glory and trophies of war
Proudly we triumph in battle
Chasing the dream of a kingdom and throne
Hail to the Band of the Hawk

This is war

Victory bound, into legend we grow

Harvesting glory and trophies of war
Proudly we triumph in battle
Chasing the dream of a kingdom and throne
Hail to the Band of the Hawk

Harvesting glory and trophies of war
Proudly we triumph in battle
Chasing the dream of a kingdom and throne
Hail to the Band of the Hawk
