

Standing in the morning and
I'm waitin' to see you smile

Standing till the morning and
I'm waiting for a while

Everybody's laughing
Everybody's an ordeal

Everything is missing
I'll never take a turn

At the end of the world

Standing in the morning and
I'm waitin' to see you smile

Standing till the morning and
I'm waiting for a while

Everybody's laughing
Everybody's an ordeal

Everything is missing
I'll never take a turn

If they tear us apart

Standing in the morning and
I'm waitin' to see you smile

Standing till the morning and
I'm waiting for a while

Standing in the morning and
I'm waitin' to see you smile

Standing till the morning and
I'm waiting for a while

Standing in the morning and
I'm waitin' to see you smile

Standing till the morning and
I'm waiting for a while
