Let's Escape Together

BEAT CRUSADERS

One fine day On my way There's a bear In a deep forest Run away Hide away There's no way Getting where I belong But, you wait! Look away Here to stay Too many people We're afraid So afraid Anyway Why don't we sing along? Everybody, let's escape together! Everybody, let's get lost together! Everybody, let's escape together! Everybody, let's get lost forever ... 'Cos I know Evils in my mind Get down straight Close to my heart Yes, I know Evils in my mind Grow Welcome to the overture This is the hell Welcome to the overture Here comes the time ...
