

# Nothing To Lose

BEAT CRUSADERS

The sun goes down and out  
something to stop inside  
It's soon that love will make it  
It's soon that love will break it

The wind is high and wild  
Why do you have to hide?  
It's soon that love will make it  
It's soon that love will break it

Ain't got nothing to lose  
From the first we've started  
No one(nothing) was there  
Ain't got nothing to lose  
Try to find we'd love to  
One thing we'll share
