

## Drive Car Girl

Beat Happening

Hey!

You're just a little shy  
There's something in your eyes  
You could have any guy  
If you only stick around a while

Yet you drive that boy around  
Drive that boy around  
Drive that boy around

You could teach the birds to sing  
With the power you're denying  
You could have everything  
It only takes a little trying

Yet you drive that boy around  
Drive that boy around  
Drive that boy around

Ba ba ba da da da  
Ba da da da

It must be something deep  
That keeps you pushing aside  
He doesn't even bother to read  
What's held behind your eyes  
He's too busy making up lies

Still you drive that boy around  
Drive that boy around  
You could be driving this boy around  
You could be driving this boy around
