

I've Lost You

Beat Happening

Got no beautiful girl
Got no beautiful girl
Scrape up the insides
With the pounding and the lights
I've lost you
The jury will be hanged
Cos there's really no one to blame
Except for me and my pride
Who's gonna love me
Who's gonna love me
Who's gonna love me
The way that i am?
Got no beautiful girl
I've lost you
Smile and goodnight
When the friend came in that night
Got no beautiful girl
I've lost the sickness
And the medicine it did me
