

# Revolution Come and Gone

## Beat Happening

When I was a young man, never been kissed  
Started thinking it over, how much I'd missed  
I hit the road to give it a try  
Got a girl in Reno just to watch her cry

Makin' love, lettin' blood  
Makin' love, lettin' blood  
Revolution come and gone

I've got a hammer and I've got a well  
I've got a secret that I'll never tell  
The guilt and pain of all the places I've been  
Ah, revolution begin

Revolution come and gone  
Behind your eyes, cut out the tongue  
It's in their lie, they try to hold back the dawn  
Of revolution come and gone

Five years ago, we were intense  
The rest have caught up, the world is a mess  
Times got hard livin' high on the hog  
Let's take our bodies and (flop and block?)

Revolution come and gone  
Behind your eyes, hold back the dawn  
Of revolution come and gone  
Revolution come  
Revolution come and gone  
Revolution come and gone

Twisting your sweater over your head  
Tearing the covers off of your bed  
Turning the tables to face the wind  
Oh, revolution begin(?)

Revolution come and gone  
Behind your eyes, cut out the tongue  
It's in their lies, they try to hold back the dawn  
Of revolution come  
Revolution come

I love watching your face redden(?)  
As we near Armageddon

Revolution come and gone

I've got a lantern and I've got a cane  
A secret in the cottage at the end of the lane  
A safe haven for committing a crime  
We'll make love till the end of time

Revolution come and gone  
Behind your eyes, cut out the tongue  
It's in their lies, they try to hold back the dawn  
Of revolution come and gone

Revolution come (6x)  
And gone

Makin' love, lettin' blood  
Makin' love, lettin' blood
