

## Common Time

Beatenberg

Try teachin' me love with a circle and a square  
Drawn in the sand  
Try see from above what you cannot see  
From where you stand, mmh-mmh  
Try playin' a four part fugue  
On a small elastic band

I'm talkin' common time, common time, simple and true  
I hear it all the time, in my mind, really I do  
I'm talkin' common time, common time, products of two  
Common to everyone, common to me and to you

Try blowin' a conch if you're overwhelmed  
With your desire  
Try burnin' your scattered thoughts  
In a single focused fire  
Try showin' a manuscript to a large unruly choir

I'm talkin' common time, common time, simple and true  
I hear it all the time, in my mind, really I do  
I'm talkin' common time, common time, products of two  
Common to everyone, common to me and to you

I'm talkin' common time, common time, simple and true  
I hear it all the time, in my mind, really I do  
I'm talkin' common time, common time, products of two  
Common to everyone, common to me and to you
