

# Southern Suburbs

Beatenberg

Can I be your lover  
In the Southern Suburbs?  
I wanna run for cover  
Under the canopy

Can I please come over  
In my green Land Rover?  
You're like a bossa nova  
Playing in the heart of me

Fill a bowl with roses  
When evening closes  
In on my dreams

Come and cool my forehead  
And put me in my bed  
I feel feverish

And I know it's not the truth  
It's only me and only you  
But it's an endless fall I'm falling  
And I can only heed my calling

Can I be your lover  
In the Southern Suburbs?  
I wanna run for cover  
Under the canopy

Can I please come over  
In my green Land Rover?  
You're like a bossa nova  
Playing in the heart of me

I could hear you coming  
You were a hummingbird  
Hovering

I think you're so pretty  
Not far from the city  
In our Eden

And I know it's not the truth  
It's only me and only you  
But it's an endless fall I'm falling  
And I can only heed my calling

You keep me hanging tight  
Suspended like an epiphyte  
And I won't let go  
I know that I'm right  
My love  
Don't try to calm me down  
Don't calm me down  
Calm me down  
I'll calm down

Can I be your lover

In the Southern Suburbs?

I wanna run for cover

Under the canopy

Can I please come over

In my green Land Rover?

I wanna take you over

Like you're taking over me

Can I be your lover

In the Southern Suburbs?

I wanna run for cover

Under the canopy

Can I please come over

In my green Land Rover?

You're like a bossa nova

Playing in the heart of me
