

# Time Machine

Beatenberg

(Your time  
Your time  
I'll be your time machine

Your time  
Your time  
I'll be your time machine)

Saw the comet  
It wasn't far away  
Launched the rocket  
Over table bay  
But what of it?  
We're here to stay  
When it's green  
And when it's grey

Drop the anchor  
Let the rope uncurl (Let the rope uncurl)  
Test the water  
Keep the sails furled  
You're my oyster  
You are my pearl  
You are my world

Your time  
Your time  
I'll be your time machine

Your life  
Hour line  
I'll be your time machine

You're mine  
Grapevine  
I'll be your time machine

Entwined  
In time  
I'll be your time machine

Heard the rhythm  
Saw the numbers fall  
Saw you sleeping  
On the garden wall  
Stone will crumble  
Grass will grow tall  
In the park  
And in the mall

In the city  
In the countryside  
When you feel  
There's nowhere to hide  
Take my music  
You'll be alright  
You'll be by my side

Your time  
Your time  
I'll be your time machine

Your life  
Hour line  
I'll be your time machine

You're mine  
Grapevine  
I'll be your time machine

Entwined  
In time  
I'll be your time machine

I promise that I won't leave you behind  
Just tell me that I'm safe inside your mind  
Just tell me that I'm safe

I promise that I won't leave you behind  
Just tell me that I'm safe inside your mind  
Just tell me that I'm safe

Just tell me that I'm safe
