

# When I Fall Asleep

Beatenberg

This lofty language  
Will not behave  
Telling you nothing  
Digging my grave

When I fall asleep  
When I fall  
Will you follow me?  
Will you fall?  
When I fall asleep  
When I fall  
Will you follow me?  
Will you fall?

This wretched romance  
Will not emerge  
Out from the jungle  
Out on the verge

When I fall asleep  
When I fall  
Will you follow me?  
Will you fall?  
When I fall asleep  
When I fall  
Will you follow me?  
Will you fall?

Everything can be translated  
Anything can make you cry  
At least now we can laugh about it  
At least I have you on my side

Language of longing  
Leaves after rain  
Longer than lifetime  
Let me explain

When I fall asleep  
When I fall  
Will you follow me?  
Will you fall?  
When I fall asleep  
When I fall  
Will you follow me?  
Will you fall?
