

Against All Logic

Beatsteaks

I will be dancin' on landmines
I will be walkin' a tight rope
I am the sun that never fades
Anytime, anyhow, anyplace

I am a [?]
I am in orbit in outer space
I'll be up straight for seven days
Anytime, anyhow, anyplace

This could be paradise
This could be heaven life
This could be workin' against all logic
Reach out for the other side
Let your instincts guide you through
C'mon

No matter where you go
No matter what you do
Whatever road you choose
I'm coming back for you

I'll follow you 'round
Among the lost and found
'Cause you're the only one
A king among the clowns, yeah

I will be crawlin' through concrete
I will be runnin' on crescent laps
I am a [?] melody
Anytime, anyhow, anyplace

This could be paradise
This could be heaven life
This could be workin' against all logic
Reach out for the other side
Let your instincts guide you through
C'mon
C'mon, c'mon

No matter where you go
No matter what you do
Whatever road you choose
I'm coming back for you

No matter where you go
No matter what you do
Whatever road you choose
I'm coming back for you
I'm coming back for you
I'm coming back for you
I'm coming back for you
