

Goodbye

Beatsteaks

I'm lookin' for enchantment
A medicine to kick in
Standing on the pavement
Waiting for some action
You need a new friend
Someone with a sun tan
Oh my, my love
Goodbye, my love

Goin' where the wind knows
Giving up control
Oh my, my love
Goodbye, my love

Every me 'n every you
Born to be blue
You're starting anew
'Cause when you're losing all the love that's true
You get ready
Get ready
Get ready
Get ready

Gimme some enchantment
A medicine to kick in
Roaming down the pavement
And rainin' on the government
Get ready
Get ready
Get ready

Ah
Ah
Hold steady
Get ready, get ready, get ready
Could've been so nice
To stay together
Could've been so nice
To stay together

My love
My love
My love

A beautiful enchantment
A medicine to kick in
Lying on the pavement
Now I've got some peace of mind
Oh my, my love
Goodbye, my love
My love
