

## Mrs. Right

Beatsteaks

Outside the world is easy going  
And nothing ever happens  
She's unlike any other earthling  
How would she ever fit in?  
She'd rather take what you don't favor  
She never looks back

Here comes the girl that I've been looking for  
With nothing to loose and no one to rule  
Now she's the one that I've been waiting for  
To help me trough the night

And so the world has stopped from turning  
And nothing ever happens  
I'm on a permanent vacation  
And I enjoy the silence  
I'll go to hell, she'll go to heaven  
We'll never look back

Here comes the girl that I've been looking for  
With nothing to loose and no one to rule  
Now she's the one that I've been waiting for  
To help me trough the night

Here comes the girl that I've been waiting for  
Here comes the girl that I've been waiting for
