So Undone

Beatsteaks

It's not alright
When you say you like me
It's not alright
When I think I have a friend
But the problem is
You use me when you needed me
You use me when you needed me

What is really going on with me
Why I do the things for you
I am a fool believe in you
What are you thinking about
What is really going on

I play a role
In your fucking game
You think I trust you
You're totally insane
You say you love me
You say I'm the only one
You say you need me
That's why I'm really so undone

What is really going on with me
Why I do the things for you
I am a fool believe in you
What are you thinking about
What is really going on

What is really going on with me
What is really going on with me (what is really)
What is really (what is really)
What is really (what is really)
What is really (what is really)
Really going on
