

# Tonight

Beatsteaks

Tonight, I'm gonna set you free  
Woo, woo  
Yeah

We celebrate and turn the wheel  
The poison and the remedy  
It's everywhere you wanna be  
Beyond control and within reach (Oh)  
I knew you would feel the powers that be  
A dream you can shake in reality  
So bright, tonight  
Who's gonna come and rescue me?

Well, you can eat me alive  
On a glorious night  
Will you go down in style when it's over, when it's over?

Under the neon skies  
Under the pale moonlight  
We celebrate and turn the wheel  
The habit and the medicine  
It's what you fear and what you need  
And what you lack is what you see  
I knew you would feel the powers that be  
A dream you can shape and reality's so bright

Will you eat me alive?  
On a glorious night  
Will you go down in style?  
Will you hang in and beg for more time?  
Will you eat me alive?  
Will you shine on tonight?  
Will you go down in style when it's over, when it's over?

Tss  
Poison and the remedy  
Ah-ah-ah-ah  
No i-ideology  
Habit and the medicine  
No i-ideology (Celebrate)

Will you eat me alive?  
On a glorious night  
Will you go down in style?  
Will you hang in and beg for more time?  
Will you eat me alive?  
Will you shine on tonight?  
Like a heathen child when it's over, when it's over
