

# I Still Miss You

Beautiful Creatures

I can hardly speak  
And I can hardly sleep  
Cuz you know I still miss you  
All the words you said  
Are running through my head  
Well you know it still hurts me

I try to make it through the days  
But you dance around until you got me going insane

Let me take this time  
To look into your eyes  
Well you know, I still need you  
Let me take this time  
To say I'm doin' fine  
But you know, I still miss you

All the times we laughed  
And all the times we joked  
Don't you know, I still miss you  
When she said I was wrong  
Well I just carried on  
Whoa how I wished I could change your mind

I know I let you take me there  
And I, and I never said that I was scared, whoa yeah!

Let me take this time  
To look into your eyes  
Well you know, I still need you  
Let me take this time  
To say I'm doin' fine  
But you know, I still miss you

So tell me what you're doing  
And tell me do you care  
You tell me I'm a fool yeah  
I know, but I don't really care

Let me take this time  
To look into your eyes  
Well you know, I still need you  
Let me take this time  
To say I'm doin' fine  
But you know, I still miss you

Let me take this time  
To look into your eyes  
Well you know, I still need you  
Let me take this time  
To say I'm doin' fine  
But you know, I still miss you
