

Starr Cross

Beautiful Creatures

Well tell me that it's all true
And tell me that it's not a lie
Cuz I feel it deep inside
If you tell me you love me and show me you need me, then I'll be all right
Cuz I know, yes I know, it's our time

Cuz we're Starr Crossed you and I
And I know this love will survive
Yes we're Starr Crossed we'll never say goodbye
And I know, yes I know, it's our time

I can not sleep without you by my side
And I can not dream without you
Well you show me you need me, you tell me you love me, now I'm alright
So I lay down and say good night

Cuz we're Starr Crossed you and I
And I know this love will survive
Yes we're Starr Crossed we'll never say goodbye
And I know, yes I know, it's our time

I can not sleep without you by my side
And I can not dream without you
You tell me, you love me, you show me you need me, now I'm alright
I lay down and say good night

Cuz we're Starr Crossed you and I
And I know this love will survive
Yes we're Starr Crossed we'll never say goodbye
And I know, yes I know, it's our time

Cuz we're Starr Crossed you and I
And I know this love will survive
Yes we're Starr Crossed we'll never say goodbye
And I know, yes I know, it's our time
