

# FEVER

## Beauty School Dropout

Now we're dripping wet, and I don't want to let you go  
Sun-kissed skin covered in sweat and gold  
Your clothes look better when they're on the floor  
So take me for a spin, I'm not afraid of vertigo

Say it back, say it back  
All I see is you and me, you and me  
Say it back, say it back  
All I see is you and me, ecstasy

I got the fever  
I got the fever  
In my heart, in my soul  
Make me believe you  
In my heart, in my soul  
I got the fever

Moxy's on the floor, come on, baby, give me more  
Meet in the bathroom, I don't want the girls to know  
That you reek of fur and pheromones  
I need some blitzkrieg top, so take me home

Say it back, say it back  
All I see is you and me, you and me  
Say it back, say it back  
All I see is you and me, ecstasy

I got the fever  
I got the fever  
In my heart, in my soul  
Make me believe you  
In my heart, in my soul  
I got the fever

Do you feel it, baby?  
Do you feel it, baby?  
Do you feel it?  
I got the fever, baby  
I got the fever, baby  
I got the fever, baby

I got the fever  
I got the fever  
In my heart, in my soul  
Make me believe you  
In my heart, in my soul  
Make me believe you  
In my heart, in my soul  
I got the fever
