

Decisions In Time

Beaver

Well, you know about
Universes kindalike
Your decision
In time
Will make the difference

Awake you're still sedated
You can't remember your dreams
Long ago you were certain
All this was gonna change

Falling at the speed of light
Time delation sets in
Space curls up to a gate
Looks like there is no more escape
But what way you'll go
What hole you take
How far it will bend before it will break

Your decision
In time
Will make the difference
