

Supernova

Beaver

I want some minds connecting
In all this shooting the breeze
Though we might disagree
You're no strange entity
I have to fight
I am no referee
Don't know what's right
Our clashes are merely scales
To weigh our lives on
Like colliding parts start stars
That absorb all life around
Tie us in all dimensions
All we are particles
We just push and pull
To find a new direction

Though we might disagree
You're no strange entity
I have to fight
Our clashes are merely scales
To weigh our lives on
Like colliding parts start stars
That shine

Cycle of life
Like a sun burning bright
Runs on collisions oh, moon turn my tides
