

## Celebrate New Life

Bebe & Cece Winans

It's one on one I'm talking  
I'm talking me and you  
Do you believe I love you  
And you say I know you do  
I'll never leave you lonely  
I'll be there I know you will  
And when you learn to trust me  
I'll take you somewhere far away  
No need for memories, yesterday's gone

Chorus:

Celebrate new life  
Beyond the Milky Way  
Leave your cares behind  
There's a song that rings  
Sing oh happy day  
Aint it good to know  
Love is here to stay
