

Change Your Nature

Bebe & Cece Winans

People, where are you going
The road you travel will end in destruction
Children, play in the schoolyards
Learning new ways that will lead to deception

Oh, but I can change your mind
And I can change your heart
But it's up to you if you'll stay or part
Know that I am God
And I'm able to change your nature

Sister, since age eleven
The only purpose in life was the corner
Oh, my brother, you're slowly dying
The only high that you've known was the needle

Oh, but I can change your mind
And I can change your heart
But it's up to you if you'll stay or part
Know that I am God
And I'm able to change your nature

Oh, I can change your mind
And I can change your heart
But it's up to you if you'll stay or part
Know that I am God
And I'm able to change your nature

Oh, I can change your mind
Oh, yes, I can
I'll take the wrong and make it right
Oh, yes, I can

Oh, people, where are you going
The road you travel will end in destruction

But if you allow Me, I can change
Change your mind
Oh, yes, I can
Oh, you better believe I can
Able to change your nature

Oh, I can take what's wrong
And I can make it right
Oh, yes, I will
Oh, your very nature
No matter what you know
