

# Don't Let Me Walk This Road Alone

Bebe & Cece Winans

I close my eyes and I go to sleep  
Knowing that time's not mine to keep  
As the morning breaks And I start to wake  
Trying to make it through  
Just for life's own sake

I look at life now in a different way  
Living each moment of each day  
It's the same old sky  
But it's brighter now  
I look up and the stars  
Mean much more somehow

Help me now as I start to fall  
Shelter me, I don't ask for much at all  
All I need is just one more day  
Giving me hope to dream upon  
Don't let me walk this road alone

It takes some rain to make a flower grow  
It's just a simple thought I know  
With your love and care I will have no fears  
I believe I'll give the life  
That hold so dear

Help me now as I start to fall  
Shelter me, I don't ask for much at all  
All I need is just one more day  
Giving me hope to dream upon  
Don't let me walk this road alone
