

These What Abouts

Bebe & Cece Winans

Now let me start by saying sorry
Thought it might be positively too late
Knowing this one word can't change things
But yet it can express the way my heart aches
My heart aches.

Chorus

Cause what about the plans we made
What about the dreams of cascades
What about the vows we pledged
Are they still alive or dead
And what about the promise to stay
Can I still believe it's ok
Can we somehow talk about these what abouts
These what abouts

So let me just confess I love you
Admitting that I failed to show in times past
So if you just can't in your heart continue
Know the love you gave forever will last
Forever will last.

Chorus

And what about the promise to stay
Can I still believe it's ok

Can we somehow talk about
Somehow work it out
Can we somehow find a way, find a way
Can we somehow find a plan, somewhere there's a plan
Can we somehow work it out, somehow work it out
Somehow find a way, somehow find a way
Somehow talk about it, somehow talk about it
Somehow there's an answer, somewhere there's an answer
Can we somehow work it out, somehow work it out
Can we somehow talk about these what abouts
These what abouts
Can we talk about these what abouts

It won't hurt to talk about
These what abouts
