Born For This

Bebe Winans

Looking back in retrospect
It's funny how we've seen
The laughs and frowns, the ups and downs
It's a part of destiny

Some wish upon a star
And hope one day that wish comes true
But I wouldn't change one simple phrase
For the chance of loving you

Born for this
Destined for greatness
I was prepared for this
His strength for my weakness

I found that loving someone is easy
And learned with love there comes a risk
And in my quest to find the answer
Found I was born for this

What we don't know time will tell
This I do believe
When you were born the angels sung
In perfect harmony

That doesn't means just happiness
There's always room for rain
But if we learn what autumn knows
Autumn knows spring comes again

Born for this
Destined for greatness
I was prepared for this
His strength for my weakness

I found that loving you is easy
And learned with love there comes a risk
And in my quest to find the answer
Found I was born for this

There's a time to live and a time to die
So celebrate each moment of our life
And if we ever lose our way because the heart is torn
Never let it question why the reason that you we're born

Born for this
Destined for greatness
You were prepared for this
His strength for your weakness

I found that loving someone is easy
And learned with love there comes a risk
And in my quest to find the answer
Found I was born for this
